Highlights of the 2016 Canada Summer Jobs Program

- Canada Summer Jobs provides funding to not-for-profit organizations, public-sector employers and small businesses with 50 or fewer employees to create summer job opportunities for young people aged 15 to 30 years who are full-time students intending to return to their studies in the next school year.

- Not-for-profit employers are eligible to receive funding for up to 100% of the provincial or territorial minimum hourly wage. Public and private sector employers are eligible to receive funding for up to 50% of the provincial or territorial minimum hourly wage.

- Total funding in 2016 for Northumberland-Peterborough South of $625,000. An increase from 2015 of $284,000. Total funds requested this year were $1.9 million dollars. The funds provided a total of 248 jobs up from 113 jobs in 2015 and resulted in 80,000 hours of work for students across the riding for periods of from 8 – 12 weeks.

Thank you to everyone for all your support for the Canada Summer Jobs Program and our area youth. I look forward to the coming months when I will be travelling around the riding meeting with Municipalities and organizations and sharing how we can all work together to see this dynamic riding grow and prosper.
